Is There Garbage Present? Yes No

Soils Observed _____

IV. Additional Comments:

Covers as often as possible with
the limited dirt available.

INSPECTED BY

Robert H. Patton

October 17, 1972

Parke County Commissioners
Court House
Rockville, Indiana

Gentlemen:

On October 13, 1972, a representative of this office inspected all of the refuse disposal facilities in Parke County. The facilities inspected along with comments on their operation are as follows:

1. Bloomingdale dump--closed, but not covered.
2. Rockville landfill (south of sewage treatment plant)--not in operation.
3. Rockville landfill (northeast of Rockville)--closed and covered.
4. Montezuma dump--closed and covered.
5. Open dump by covered bridge (Lodi)--open dump, currently in use but should be closed.
6. County landfill (north of Route 36, west of Rockville --open and in use. The operator is doing a fairly good job, but cover is seriously deficient due to a lack of available cover material.

If you have any comments about this list or any of our notes on these operations, please advise.

Very truly yours,

Roland P. Dove, Chief
General Sanitation Section
Division of Sanitary Engineering
AC 317/633-4393

August 2, 1973

Parke County Commissioners
Court House
Rockville, Indiana 47872

Gentlemen:

Re: Parke County Refuse Disposal Practices

On July 30, 1973, a representative of this office inspected the refuse disposal sites in Parke County.

It was observed that the County has virtually eliminated all disposal sites but the county landfill located six miles west of Rockville.

However, we observed that the dump near Lodi has not been properly closed. Refuse remaining uncovered is an invitation for continued use of the dump, despite signs directing that refuse be hauled to the county landfill. We recommend that the material at this site be buried or hauled away to the landfill.

Secondly, a check of our records indicates that the county landfill has never received approval from the State Board of Health. This is in violation of Section 3 of the Refuse Disposal Act. We urge you to contact this office relative to obtaining such approval.

Very truly yours,

Roland P. Dove, Chief
General Sanitation Section
Division of Sanitary Engineering
AC 317/633-4393

SOLID WASTE DISPOSAL FACILITY INSPECTION REPORT

DATE: 1/17/75 TIME: 1:00 COUNTY: Marshall Co
SUBJECT: P. H. Co. L. F.
LOCATION: East of W. S. 36
PERSON(S) CONTACTED: [Signature]

OPERATION APPROVED? YES ☒ NO ☐ PERMIT NUMBER _____
OPERATION DUMP ☒ LANDFILL ☐ OTHER _____

EXISTING DEFICIENCIES:

- 1. Standards
 - a. On-site roads passable by vehicles regardless of weather.
 - b. Sanitary facilities meet standards.
 - c. Livestock feeding prohibited.
 - d. Proximity to dwellings greater than 600 feet.

Quality

- 1. Groundwater monitoring wells installed in accordance with Board requirements. Sampling as specified.
- 2. Surface drainage controlled.
- 3. No refuse deposited in water.
- 4. Leachate control/treatment satisfactory.

Quality

- 1. Open burning ☐ past ☐ present

Sanitation

- 1. Control and/or policing of blowing paper adequate.
- 2. Vehicular access controlled when site is not open.
- 3. Containers at gate clean and litter free.
- 4. Natural windbreaks and greenbelts maintained.
- 5. Entrance sign adequate, permit numbers and working hours stated.
- 6. Salvaged materials properly stored, and not causing operational problems.
- 7. On-site roads constructed to minimize tracking of mud onto public roads.
- 8. Refuse processing facilities maintained in litter free condition. Overnight storage areas enclosed.

...

- 9. Decomposition gases adequately controlled.

PHYSICAL CHARACTERISTICS OF SITE:

Proximity to major highways: 660 yds
Proximity to dwellings: 1.5 miles
Refuse on site or nearby: 100 tons
Jurisdiction of Site or Operation: Private ☒ County ☐ Municipal ☐

REMARKS FROM PART III.

Remarks

The site neck at Monks Road is well maintained and in fairly good condition.

OVERALL EVALUATION:

Overall evaluation of operation: Excellent ☐ Good ☐ Marginal ☐ Unacceptable ☐
Overall evaluation of site: Good ☐ Marginal ☐ Poor ☐

Comments/Diagrams

Vectors

- ☐ 19. Effective vector control program.

Safety

- ☐ 20. Roll bars and fire extinguishers on rolling equipment.
- ☐ 21. Provisions available to extinguish fires.
- ☒ 22. Communication equipment available.
- ☐ 23. Scavenging prohibited.
- ☐ 24. Traffic patterns established, vehicles discharge without delay.

Operator Instructions

- ☐ 25. Operating manual, safety precautions, and procedures available.

Cover Applications

- ☒ 26. Waste spread in layers, compacted on approximate 3:1 slope.
- ☒ 27. Daily cover adequate.
- ☐ 28. Finished portions covered with minimum of two feet of earth seeded with suitable vegetation.
- ☐ 29. Final slope not less than 2%, without ponding of water.

Hazardous and Special Wastes

- ☐ 30. No unauthorized hazardous wastes accepted.
- ☐ 31. Bulky waste handling adequate.
- ☐ 32. Dead animal handling adequate.

Equipment

- ☐ 33. Refuse handling equipment adequate to spread, compact and cover waste.

Records

- ☒ 34. Set of approved plans on site.
